

# Input sought for Long Island Sound Blue Plan review

Dear friends, colleagues and partners,

The Long Island Sound Resource and Use Inventory and the Long Island Sound Blue Plan were called for by the Connecticut General Assembly (CGA) through Public Act 15-66 and were unanimously adopted by the CGA in 2021. The law that established the Inventory and Blue Plan also requires that these documents be reviewed and updated every five years. To assist in that effort, we have developed this [survey that seeks feedback](#) on your familiarity with the Inventory and Blue Plan, and suggestions for the review.

However, even if you are not familiar with the Resource and Use Inventory or the Blue Plan, we hope you will still complete the survey. Your insights and input will give us a sense of why Long Island Sound is important to you, which, in turn, can help improve the Blue Plan and the data and information contained in the Inventory.

So please complete the survey now. It will only take 10 minutes, and it will give us a wealth of information.

And when you're done, you can learn more about the Long Island Sound Resource and Use Inventory and Blue Plan by visiting the [Blue Plan website](#) where, in addition to the [Inventory](#) and [Blue Plan](#), you will find a [video series](#) and a link to the [Long Island Sound Blue Plan Map Viewer](#) to see maps of where the Sound's resources and human uses are located, at least the ones that we currently know about.

You can also join the [Blue Plan Listserv](#) to receive information and updates about the Blue Plan and our revision efforts.

Finally, please feel free to reach out to me at [sylvain.deguise@uconn.edu](mailto:sylvain.deguise@uconn.edu) or DEEP's Blue Plan liaison DeAva Lambert at [DeAva.Lambert@ct.gov](mailto:DeAva.Lambert@ct.gov) if you have any questions about the survey, or comments to share about Long Island Sound.

Thank you for your time.

Sincerely,

Sylvain De Guise, Connecticut Sea Grant  
DeAva Lambert, DEEP Liaison
