

A scenic sunset over a body of water, likely Long Island Sound. The sun is low on the horizon, casting a golden glow across the sky and reflecting on the water's surface. Several large, dark buildings are visible in the background, silhouetted against the bright sky. The foreground shows the dark, choppy water of the Sound.

SAVE THE DATE!

2026 Long Island Sound Research Conference

June 4-5, 2026 in Mystic CT

We welcome oral presentations and posters across disciplines in natural and social sciences that contribute to the four themes of the Long Island Sound Partnership CCMP:

- Clean waters and healthy watersheds
- Thriving habitats and abundant wildlife
- Sustainable and resilient communities
- Informed and engaged public

Abstract submissions open: February 16, 2026
(details on submission process coming soon)

Deadline for abstract submission: April 3, 2026
